Maximum temperature.....	69
Minimum temperature.....	51
Average.....	60
Precipitation.....	.00
Total precipitation for month.....	4.23

Forecast for Nebraska: Partly cloudy tonight with warmer extreme west portion. Possibly showers by Friday night.

THURSDAY TOPICS.

The farmers are very busy. This is regular Nebraska weather. No business was visible at the police court today.

Low & Williams passed through the city last night with a carload of feeders from Omaha for Columbus.

William Bland, the engine wiper on the M. & O., has resigned and his place has been taken by August Graul.

Norfolk lodge, No. 97, A. O. U. W.,

will hold its regular session tomorrow evening at 8 o'clock. All members are requested to be present.

The Nebraska State Sunday School convention will be held in Holdrege, June 13-15. Entertainment will be provided for all delegates presenting proper credentials.

A number of friends dropped in upon Miss Ada Butterfield last evening to help that young lady celebrate her birthday. The party was planned as a surprise and proved a complete success, not only in that respect but as a social affair. Cards and refreshments occupied the time until midnight.

The invoicing of the Forney drug stock has been completed, and the store is now in charge of its new proprietor, Geo. B. Christoph, who proposes to make some changes and improvements, and will add a complete news department in a short time. George looks natural behind a drug counter once more, and seems to be very much at home.

It is about the same in every direction. The Albion News says: Every mechanic of the city is in active demand these days. The new buildings, the new additions and repairs, the painting and paper hanging, all tax the capabilities of the several workmen in these different lines of labor. It is almost impossible to find a man for even unskilled labor.

There will be a meeting of the Business Men's association at the city building Friday evening, May 19, 1899. There are several questions of importance for discussion and the matter of changing the meeting night from the first and third Fridays of each month to the second and fourth Fridays will be considered under a resolution passed at previous meeting.

Several changes will be made in a few days on the M. & O. A freight train will be added, leaving here ahead of the morning passenger, and will handle the stock. Coming back in the afternoon before the evening passenger it will handle the perishable freight. The morning train will leave here a little later and make connections at Emerson with the train from Omaha for Sioux City.

The News was in error yesterday in stating that arrangements had not been made for the baccalaureate sermon to the graduating class of the Norfolk High school. The baccalaureate sermon will be delivered by Rev. J. J. Parker at the First Congregational church on Sunday evening, May 28, and will be in the nature of a union service, most of the other churches having agreed to hold no services on that evening.

To the Public.

I have purchased the drug stock of C. M. Forney, and will continue the business at the old stand. In addition to the drug and stationery business, I will conduct a news stand in connection, where all the latest daily papers, magazines and periodicals will be kept on sale. I cordially solicit a share of your patronage. GEO. B. CHRISTOPH.

Remember the sample sale, May 19 and 20, in Pacific block east of post office.

Wall eyed pike at Glissmann's.

Box can suit you on coffee.

McClary Resigns.

Some ten days ago J. W. McClary sent in his resignation as captain of company L, and yesterday, by command of Governor Poynter, the following order was published:

The resignation of Capt. John W. McClary, company L, Second regiment, Nebraska national guard, is hereby accepted, to take effect when his successor has been elected and qualified.

The commanding officer of company L, Second regiment, Nebraska national guard, will assemble that command at its next regular meeting after the receipt of this order, and proceed to the election of a captain, vice McClary, resigned. Should this election result in other vacancies among the commissioned officers of the company, election will be held immediately to fill the same.

In accordance with the above order a meeting of company L will be held within a few days and an officer chosen to fill McClary's place.

Agents Wanted—For "The Life and Achievements of Admiral Dewey," the world's greatest naval hero. By Murat Halstead, the life long friend and admirer of the nation's idol. A fine upright piano for rent.

HAYES JEWELRY AND MUSIC HOUSE.

A SAMPLE SALE.

The Ladies of the Presbyterian Church Will Hold One on Two Successive Days.

The sample sale which begins tomorrow and continues for two days under the auspices of the ladies of the First Presbyterian church promises to be an unqualified success. The plan was a novel one to this place. Some time ago with the co-operation of the merchants of the city, letters were written to the different wholesale houses in the different cities stating that the Presbyterian church of this city would soon hold a sale, the proceeds to go into its treasury, and asking that they send a sample of their goods as a contribution. The responses were prompt and numerous and embrace a wide variety of staple and fancy goods. One firm in Michigan sent a fine heating stove. There are chairs, farm machinery, lawn mowers, millinery, dry goods, boots and shoes, drugs, groceries, confectionery, hardware and a pump. Some one sent a beautiful mandolin and there are books and novelties. In most cases the freight was prepaid. Quite a number of merchants sent money. The amount of cash received in this way amounts to nearly \$25.00. Omaha responded very generously while there are also goods from New York, Philadelphia, Cincinnati, Chicago, St. Louis, St. Joe, Sioux City and Minneapolis. All sent goods of one kind or another. The society is also indebted to the Sugar City mills and the Pierce flour mill.

McCord, Brady & Co., of Omaha sent a liberal supply of coffee and with it a demonstrator. From this, hot coffee will be served all day tomorrow and Saturday and with it hot biscuits for which the Harding Creamery Co. will furnish the butter.

The public are cordially invited to call at next door east of the postoffice in the Pacific block, Friday and Saturday, and inspect these new fresh goods. They are for sale at prices lower than they are usually offered.

The room already presents a very attractive appearance and the different departments are well represented.

A piano will be placed in the room and good music will be furnished.

Those who want the pick of the lot should call early and make their purchases. There are no old goods. Everything is bright and new, plainly marked and worth what is asked for it.

The "sample sale" is one of the most unique and attractive enterprises ever undertaken in Norfolk and the Presbyterian ladies desire not only commendation for their energy and business push, but that kind of recognition which manifests itself in a substantial and liberal amount of cash in return for value received.

Everybody should attend tomorrow and Saturday. There are innumerable articles such as will supply urgent household needs.

Choice veal at Glissmann's.

The sample sale by the ladies of the Presbyterian church will be held Friday and Saturday, May 19 and 20.

Snider's catsups at Box's.

Houses for sale. T. E. ODIORNE.

Buy a \$2.00 pair of shoes or oxfords of Spencer & Ovelman and get a fine picture free.

Catfish at Glissmann's.

Is It Malaria or Alum?

Langnor, loss of appetite, indigestion and often feverishness are the common symptoms of a physiological condition termed "malaria." All these symptoms may be and frequently are the effect of the use of alum baking powders in food making. There is no question about the poisonous effect of alum upon the system. It obstructs digestion, prostrates the nerves, coagulates and devitalizes the blood. All this has been made clear, thanks to physicians, boards of health, and food commissions. So "highly injurious to the health of the community" does the eminent head of the university of Pennsylvania, Dr. Barker, consider the alum baking powders, that he says "their sale should be prohibited by law." Under these circumstances it is worth the while of every housewife to employ the very little care that is necessary to keep so dangerous an element from the food of her family.

A pure cream of tartar baking powder, which is the only kind that should be used, ought to cost about forty-five to fifty cents a pound. Therefore, if you are paying much less, something is wrong; if you are paying twenty-five cents or less per pound, the powder is certainly made from alum.

Always bear these simple facts in mind when purchasing baking powder. Telephone No. 112 will ring up Dr. F. Verges' residence and office.

Uhle has just received some very fine old onions.

If you want to sell or trade your property list it with,

G. R. SEILER & Co.
